LOCATION: 540 Arapeen Dr • SLC
FEE: $145 + $40 special fee
INSTRUCTOR: Janet Faught

**Blacksmithing - An Introduction**
Blacksmithing in the modern world is rooted in creating art and tools with fire and force. This is a beginner class designed to give you a taste of what being a blacksmith is all about, as you use contemporary and antique equipment to learn the ancient skill of forging steel with hammer and anvil. You will learn hammer control, the different parts of the anvil, the different strikes on the anvil and how to use them to maximize your effort. All class projects are designed to use the skills you develop to enhance your capabilities. Wear closed toe shoes and natural fiber clothing. Students must bring their own above-the-wrist leather work gloves and safety glasses (both can be found at home stores). Please bring a large container of water or sports drink - this is hot and thirsty work!

FEE: $225 + $120 special fee
INSTRUCTOR: Mary Lambert

Botanical Art and Illustration Sampler
Learn to see the natural world in a new light with this comprehensive introduction to Botanical Art and Illustration. Botanical art is different from other art as it should portray the plant and its parts accurately but still retain the artists’ creativity. The term illustration pertains to the scientific aspect of illustrating plants (usually in pen and ink) for publication in botanical journals or for a historical collection. You will learn 4 different botanical techniques commonly used in the botanical world, graphite drawing, colored pencil, Micron pen and ink and watercolor. This class is appropriate for both beginners wanting to gain confidence in their skills, and experienced artists looking to refine techniques in different media. The special fee covers all supplies and the botanical subject needed for the class.

LLART 303-001 • W, Jan 16-Feb 20 • 6:00-9:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $199 + $35 special fee
INSTRUCTOR: Elaine Hultgren

Metal Embossing
Metal Embossing, the art of producing raised or sunken patterns on the surface of metal, is visually stunning, lots of fun, and easier than it looks! Learn to hand emboss soft metal with simple tools to create a journal cover and a decorative box. Finishing techniques to create an “antiqued” look will also be demonstrated and available for students to try. Please bring a hard cover journal or sketchbook, 6” x 9” or smaller. Special fee covers the rest of the required materials.

LLCFT 167-001 • W, Jan 16-Feb 20 • 6:30-8:30 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $145 + $40 special fee
INSTRUCTOR: Sofia Chimaras

Beginning Drawing
Anyone can learn to draw! This class will encourage you to explore drawing through a variety of materials, methods, and philosophies. You will become familiar with charcoal, ink, graphite, oil pastels, and even alternative drawing materials as you complete exercises and activities to help you see what is in front of you and set your vision down on paper. Gain confidence as you become acquainted with your own unique drawing style. Please bring a smock or wear “art clothes,” and bring a large (6x10x4 inch) container for take-home supplies. Special fee covers all materials. No class Feb 14.

LLART 068-001 • Th, Jan 17-Feb 28 • 6:30-8:30 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $139 + $20 special fee
INSTRUCTOR: Eric Erekson

Fused Glass Art with Recycled Glass
Learn how to make beautiful and creative fused glass art using bottle glass, window glass, molds and a kiln. Bottle glass - in the form of whole bottles or sheet glass made from bottles - is an inexpensive alternative to art glass, and its use as a raw material is great for the environment. We’ll start with the absolute basics, including an introduction to the tools you’ll need, and work our way through a number of techniques as we create a variety of projects. This class is wonderfully repeatable, as new projects are introduced each term.
No experience necessary, please provide your own work gloves and safety glasses (obtainable from your local hardware store) and wear close-toed shoes to all classes. Special fee covers all materials and firings. Students will be responsible for additional tools ($30) and these will be discussed on the first night of class.

**Decorative Spoons Workshop**

In addition to personal adornment, metalsmithing can be used to create one-of-a-kind functional items for your home. Learn hammering, forming, riveting, and soldering techniques to create a set of two spoons, such as a coffee scoop and sugar spoon or a ladle and a soup spoon in a raw, organic “farm house” style. This class is intended for students who have taken LLCFT 229 Beginning Metalsmithing, or have previous metalsmithing experience. Special fee covers the cost of all materials, facility and tool rental for the class. Please bring a sack lunch.

**Intro to Quilting**

Are you yearning to make a quilt for the first time, or want to renew your love of quilting? Learn the foundations of choosing fabrics, quilt designs, and cutting and piecing precisely to achieve great results. You’ll create a mini quilt top incorporating a nine patch block, flying geese block, half square triangles, and an hour glass block. Then you’ll make a quilt sandwich, quilt it, and bind it. You’ll leave ready to show the world what you’ve created! Please register for section 001 if you are bringing your own sewing machine (recommended) or section 002 to use one from the instructor. Special fee covers cost of all materials, and the use of the sewing machine in section 002.

**Fabric Pet Portraits**

Create a unique wall hanging inspired by the puppy-dog eyes, or “boop”-able nose of a favorite four legged friend. You’ll learn to sketch a likeness of your pet, cut it out in fabric, and attach it to a colorful backing using the embroidery technique blanket stitch. Beaded embellishments and 3D elements that pop off the background will also be explored, enabling you to purr-fectly capture your pet’s personality in a one-of-a-kind piece of textile art.
Soft Pastel Drawing
With no need for water, brushes, or palettes, soft pastels allow you to create colorful art in a painterly style with the ease of a dry medium. Painters and drawers alike can add to their creative toolbox as they explore the basic elements and structure of this lovely art form. Techniques such as sketching, value studies, color layering, composition, and more will be covered in the first half of the course, with the second half dedicated to working on a project with subject matter of your choice. Please bring a smock or wear art clothes. Special fee covers all materials. No class Feb 18.

LLART 100-001 • M, Jan 28-Mar 11 • 6:30-8:30 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $125 + $45 special fee
INSTRUCTOR: Patty Schafbuch

The Sketchbook Journal — Expression & Experimentation
Developing a personal sketchbook habit is a fun and creative way to bring presence and awareness to your surroundings. Relax in a “judgment-free” zone where you will record memories, explore emotions, and experiment with new ways of expressing yourself including drawing, watercolor, lettering, collage, and abstraction. You’ll develop creative and cognitive skills, explore personal theories, and have the opportunity to share your successes and failures. While the focus is on building visual art skills, no previous art experience is necessary; all are welcome and encouraged to join. No class Feb 14.

LLART 287-001 • Th, Jan 31-Feb 28 • 6:00-8:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $99 + $20 special fee
INSTRUCTOR: Desarae Lee

Encaustic Painting on Photos
Encaustic is the application of heated beeswax containing colored pigments to a surface. This wonderfully manipulative technique dates back to Egyptian portraits from 100-300CE and can be used to create eerily beautiful works of contemporary art. Learn about grounds, application and color, scraping and incising, masking, photo application and collage, stenciling and much more. Students with prior experience will be provided with additional information for continued learning in this medium. Special fee includes all supplies except the photographs to be used, these will be discussed during the first workshop. Class is limited to 8.

LLART 284-001 • S, Feb 2-16 • 10:00 AM-4:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $199 + $100 special fee
INSTRUCTOR: Niel Franti

Small Object Still Life: Composition & Style
Imaginative, interesting and dynamic composition can transform an intimate still life drawing into a masterpiece. It is through composition that you introduce your own personal style into your work. Come to understand the elements that go towards creating a good composition and the basic principles underlying a successful finished piece. We will work entirely in graphite pencil, but the principles apply to all art media. Special fee covers the cost of materials needed for the class. This class is intended for students who have taken LLART 68 Beginning Drawing, or have other previous drawing experience.

LLART 135-001 • T, Feb 5-Mar 12 • 6:00-8:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $139 + $20 special fee
INSTRUCTOR: Natalia Wilkins-Tyler

Photo-Plate Lithography
Achieve the tonal qualities and subtlety of a lithograph without grinding stones through the use of light sensitive photo plates. Create detailed marks through linear drawing, photocopied images, photographs, digital images, and text. Working with 1-2 images, depending on complexity, you’ll make multiple runs (layers) in black and white, or color, inks. No previous printmaking experience is necessary. Students will be contacted prior to the first class with information on the types of images/files to bring to class.

LLART 134-001 • T, Feb 5-Mar 12 • 6:00-8:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $199 + $100 special fee
INSTRUCTOR: Niel Franti

**Watercolor Workshop - The Colors of Utah**

Learn to paint the canyons of Utah, with their colorful rock formations, highlights, and shadows. Through step-by-step demonstrations and hands on experience, you'll discover techniques that allow you to: recreate dramatic light and shadow, build dimension by layering color, and add texture. Create a painting in one day using a provided image, or bring your own with good light and shadows on the rocks. Please bring a lunch. LLART 71 Beginning Watercolor Painting or equivalent experience is required. Students are responsible for their own materials; find a list online, or call 801-587-5433.

**Gothic Hand Calligraphy**

Popular throughout the medieval period, the gothic alphabet evolved as a method of saving space on a written page, thus making books and manuscripts more affordable. In this uniform script, the design of the word takes precedence over the individuality of the separate letters. Through step-by-step instruction and practice, gain confidence in this ornamental, and methodical, calligraphic style, which is perfectly suited to short texts, gorgeously addressed envelopes, and special inscriptions. Special fee covers the cost of materials for the class. Bring an apron to protect your clothes.

**Laminated Steel Workshop**

Laminated steel - also known as Damascus steel - is created by combining strips of steel and iron through hammer-welding, and repeated heating and forging. The process creates distinctive layered patterns that are intrinsic to the steel. Join local blacksmiths to create two 3lb “billets” of laminated steel which will be used to create a handled herb chopper and a wearable item of your choosing (such as a cuff bracelet, pendant, or belt buckle). Prerequisite: Blacksmithing — An Introduction, LLCFT 323 or equivalent. Wear closed toe shoes and natural fiber clothing. Students must bring their own above-the-wrist leather work gloves and safety glasses (both can be found at home stores). Please bring a large container of water or sports drink - this is hot and thirsty work!
Collagraph Printmaking — Multiple Variations
This inventive and inspiring style of printmaking uses a collage of inexpensive materials (essentially anything that can be stuck on an mdf panel base) to give you an amazingly versatile print experience, offering space to explore form, texture and composition. Explore the next dimension of collagraph printmaking through the addition of photographic or drawn textures using screen printing techniques. Screen printed elements will become a focus to add value or texture to your imagery, as you work on a series of 12"x 12" collagraph boards. Perfect for both students who have previous collagraph experience, or those who are new to the medium.

Expressive Mark Making: Faux Oils and Cold Wax
Explore the basics of this expressive mixed media technique that combines Golden OPEN paints and cold wax to create a result similar to encaustic.

OPEN Acrylics have an increased working time, which expands their range to include more traditional techniques once only possible with oils. Learn to create layers incorporating textures, lines and colored fields. As you work you’ll discover your own personal language of mark making as intentional layers become unintentional abstractions. During this workshop you will create multiple works on paper. While some painting experience is preferred, the workshop is open to all levels. Special fee covers oils, mark making tools and wax medium. Please see the list online for additional items needed for the class. Be sure to bring your curiosity and an open mind!

Portrait Drawing
Work with a live model and demystify the process of depicting a realistic likeness. Through careful observation, we’ll focus on the fundamental mechanics of blocking in the head and face, using essential techniques and concepts of the picture plane, measuring, proportion, line, positive and negative space, value, volume, basic anatomy, and composition. We’ll work primarily in charcoal, as well as in pastel and pan pastel, launching on an adventure that for many is
a lifetime pursuit. Students are responsible for their own materials, find a list online, or call 801-587-5433. Special fee is for models.

LLART 218-001 • Th, Mar 21 – Apr 25 • 6:00-9:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $189 + $20 special fee
INSTRUCTOR: Eric Erekson

**Hollow Form Ring Workshop**

Add an element of architecture to your jewelry as you learn to build a three dimensional hollow form ring. Hollow form allows you to take your design ideas to another level without adding additional weight. These pieces will be as substantial as you'd like them to be, but also durable and comfortable to wear. Piercing, fitting, and advanced-beginner soldering techniques will contribute to each successful piece. This class is intended for students who have taken LLCFT 229 Beginning Metalsmithing, or have previous metalsmithing experience. Special fee covers the cost of all materials, facility and tool rental fee for the class. Please bring a sack lunch.

LLCFT 313-001 • S, Mar 23 • 9:30 AM-4:30 PM
LOCATION: 3450 S Main St, Unit 28W • SLC
FEE: $95 + $60 special fee
INSTRUCTOR: Amy Schmidt

**Metal Clay - Silver**

Silver is the new gold—and not as pricey. Join in on a new jewelry making craze—with metal clay. Nearly everyone can create beautiful silver wearable art in a couple of two-hour sessions. This remarkable clay can be formed much like ceramic clay; it can be stamped, carved or impressed with diverse objects to create unique patterns and designs. This is an entry-level class. Included in the class fee is sufficient silver clay to make one or more pendants, earrings or several bracelet charms. The class will meet two times the same day to allow for firing of pieces in between meetings. The morning session involves forming and embellishing simple, two-dimensional shapes. The instructor fires these pieces during break. Finish your pieces in the afternoon session, fashioning them into artful creations, ready to wear.

LLCFT 242-001 • S, Mar 23 • 10:00 AM-12:30 PM
AND S, Mar 23 • 3:00-5:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $59 + $50 special fee
INSTRUCTOR: Carol Avery

**Quick Sketch Watercolors**

Discover how to easily draw with free flowing lines and confidently mix and mingle flowing translucent watercolors. Using fine point markers and transparent watercolor, you will see how quickly you can create exciting spontaneous small paintings, quick studies and journal entries. With two sessions you’ll have time to experiment, expand your skills, and explore your own style as you get into the flow of creating. This class is great for all levels of experience. Participants are encouraged to bring a selection of reference photos or use those provided by the instructor. Please bring a lunch. Students are responsible for their own materials; find a list online, or call 801-587-5433.

LLART 304-001 • S, Mar 23-30 • 10:00 AM-3:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $119
INSTRUCTOR: Cindy Briggs

**Beginning Sewing Essentials**

Explore the core principles of sewing through a series of bag-making projects. Learn how to use and troubleshoot a sewing machine; customize basic pillow and bag patterns; choose, measure and cut the right fabric for a project; and basic leather working skills. You’ll gain applied knowledge of problem solving, planning ahead, patience, and a greater confidence in making your ideas a reality. Special fee covers specialty fabric and trim. Students can expect to purchase additional supplies depending on their own fabric stash. Students are encouraged to bring their own sewing machine; a limited number are available for use. 48-hour advanced registration required.
LLCF 301-001 • W, Mar 28-Apr 18 • 6:30-9:00 PM
LOCATION: 741 S 400 W • SLC
FEE: $139 + $33 special fee
INSTRUCTOR: Sarah Burroughs

**Bookbinding: Ethiopian Link Technique**

Create a one-of-a-kind hardcover blank book as you learn the binding technique known as Ethiopian Link - a chain stitch sewing that looks similar to the Coptic binding method. Great for artists and writers looking for a special journal or sketchbook to keep their work, or beginning/experienced book makers excited to try a new technique. Special fee includes all materials needed for the class, except tools. Students without book binding tools can expect to pay an additional $40, find a materials list online, or call 801-587-5433. Please bring a sack lunch.

LLCF 193-001 • Th, Jan 10-17 • 6:00-9:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $99
INSTRUCTOR: Erika Cespedes

**PHOTOGRAPHY**

**Digital Photography: Nuts and Bolts for DSLR**

Ready to break out of auto mode on your digital camera? Working indoors and out, we'll decode the mysteries of digital cameras in a friendly and fun way as we see how to make properly exposed and focused images, identify and select white balance settings appropriate to the subject, and figure out how the focal length of lenses affects final images. You'll also create a set of reference images that demonstrate the workings of various controls on your camera. Please bring your DSLR or Mirrorless System camera and manual to class; post-it flags and/or a highlighter to annotate your manual are also recommended. Want more guided practice with the basics? Take Nuts and Bolts (LLART 193) either before or after this class. Saturday class is a field trip. No class Jan 21st for section 001.

LLART 193-001 • Th, Jan 10-17 • 6:00-9:00 PM
LOCATION: 540 Arapeen Dr • SLC
FEE: $99
INSTRUCTOR: Erika Cespedes

**Digital Photography: An Introduction**

Take an in-depth look at mega-pixel counts, white balance, shutter speed, lens opening, and other digital camera functions and learn how to use them to your advantage. We'll also cover traditional photographic imaging skills such as use of shutter speeds and lens openings, composition, and portraiture; so you can spend more time making great images and less time fixing them in your computer. You will get the most out of class if your camera features manual as well as automatic controls. Please bring your camera and manual to the first class. Want more guided practice with the basics? Take Nuts and Bolts (LLART 193) either before or after this class. Saturday class is a field trip. No class Jan 21st for section 001.

LLART 115-001 • M, Jan 7-Feb 11 • 6:30-9:00 PM
AND S, Feb 9 • 1:00-3:00 PM
LOCATION: 9875 S 240 W • Sandy
FEE: $169 + $8 special fee
INSTRUCTOR: Neil Eschenfelder

Digital Photography II
Have you mastered shutter speed, lens opening, and ISO? Want to explore the unique features of your digital camera such as white balance, contrast, HDR, resolution, RAW shooting, metering modes and black and white? If you have mastered the basics and are ready to go deeper, this is the class for you. We’ll use a combination of field and classroom sessions to make the most of the immediacy of digital feedback. Learn to understand and benefit from the unique controls your digital camera gives you. Prerequisite: Nuts and Bolts (LLART 193), Digital Photography I (LLART 115), or take our quiz: go to www.lifelong.utah.edu or call 801-587-5433. Saturday classes are field trips.

Product Photography - An Introduction
A picture is worth a thousand words and the product images you use should be unique, high quality images that best represent you and your product(s). Ideal for students looking to hone their studio lighting skills through the lens of product photography (pun intended!). We will explore practical tools for staging/styling subjects, building an efficient home studio, and emphasize budget-conscious solutions to lighting problems. Saturday class meeting will be a field trip to see the workings of a large production studio. We recommend that students have some prior photography experience and cameras with settings that can be manually controlled (this is not an ideal class for smart phone users). Prerequisite: Nuts and Bolts (LLART 193), Digital Photography I (LLART 115), or take our quiz or call 801-587-5433.

Historical Photographic Processes in a Contemporary World
Experience the timeline of photography as you make prints using three different historical processes, while working with a film negative printed from your own digital file. Students will create cyanotype, van dyke brown, and salted paper prints, learn the history of each, and get to know artists from both the past and present who work(ed) with these processes. Special fee covers the cost of chemistry, paper, and the printing of one digital-to-film negative (additional negatives may be purchased from the instructor). Information regarding how to choose an image, and the file size required to print a negative, will be discussed in the first class.
Copyright and Intellectual Property Issues for Photographers

As a photographer, your images are the most important intellectual property that you own. Depending on your business or hobby, you may be generating thousands of “original works of authorship” per year and you want to trust that your photographs will be used only after you’ve given permission. What happens when you find one has been misused or passed off as being created by someone else? Learn your rights and how to protect yourself in both digital and analog domains from an attorney who specializes in copyright and intellectual property law. Topics include: ownership and authorship of intellectual property, online enforcement and defense of copyrights, and the Digital Millennium Copyright Act (DMCA). Free parking is available.

Introduction to Off Camera Flash

Sometimes you need a little extra lighting to achieve a properly exposed image, but using electronic flash units mounted on top of your DSLR can produce contrasty, stark or flat photos. Luckily, it’s easy to vastly improve your results by moving the flash off-camera. Learn how to use off-camera lighting, and also the light modifiers—umbrellas, softboxes, grids, etc.—that will give your images a professional look. Speedlights can give you the same look as pro studio lighting, and have the added advantage of no cables or cords to manage. Through demonstrations of off-camera lighting techniques and hands-on applications of lessons learned, you’ll bring your photography to a whole new level... in a flash! Prerequisite: A DSLR or Mirrorless System camera equipped with a hot shoe, a memory card, and Nuts and Bolts (LLART 193), Digital Photography I (LLART 115) or take our quiz: go to www.lifelong.utah.edu or call 801-587-5433. Please be familiar with the workings of your camera. Special fee covers equipment use.

Develop Your Photographic Eye

Interested in learning to see like an artist and use your new found skills in capturing artistic photographic images? Most photography classes focus on the technical aspects of photography while this class is all about the art of photography and visualization is the key. Lean how to best position your camera, master your optics, go beyond the rule of thirds, develop patience and timing, and improve your post processing skills. Move beyond the technical hassles and think clearly like a photographer.

Introduction to Lightroom

Learn the ins and outs of Adobe’s premiere workflow and editing application, Lightroom, made specifically for digital photographers. Learn to catalog, organize, edit, and share your work. Emphasis will be on gaining the technical skills necessary to develop your own workflow and take your imagery to the next level. Leave with the ability to incorporate Lightroom into your photography routine, plus gain insight into workflow and best practices from a working professional photographer. Registered stu-
Students should have working knowledge of photography including basic terminology, basic computer skills, and comfortable learning new software.

LLART 297-001 • T, Mar 12-Apr 2 • 6:30-9:00 PM
LLART 297-002 • M, Apr 8-29 • 6:30-9:00 PM
LOCATION: 540 Arapeen Dr, Rm 156 • SLC
FEE: $149 + $10 special fee
INSTRUCTOR: Ben Kuhn

Location Photography
You don’t have to travel to a place with “stunning” scenery or famous architecture to make a beautiful or impactful photograph. Learn the basics of location photography as you explore the everyday surroundings of your own city. Activities include: discussions of techniques and sharing of images in the classroom, and 2 in-town field trips guided by the instructor. Fieldtrips will require moderate walking, so be sure to dress appropriately and have an adequate means of transporting your gear. Bring your DSLR or Mirrorless System camera to class. A tripod is useful, but not required. Prerequisite: Nuts and Bolts (LLART 193), Digital Photography I (LLART 115), or take our quiz: go to www.lifelong.utah.edu or call 801-587-5433.

Photoshop for Photographers
Considered the leader in professional photo editing software, Photoshop allows users to create, manipulate, crop, resize and correct digital images. Begin to get a handle on this massive program from a Photoshop expert with an introduction to the tools and settings that can have an immediate impact on your photographic workflow. Become comfortable with user interfaces through lectures, demos, and projects. This course is intended for students with a working knowledge of photography and its basic terms. Please bring USB thumb drive to the first class. Not sure if it’s the right class for you? Take our quiz: go to www.lifelong.utah.edu or call 801-587-5433.

Landscape Photography
Learn the skills and techniques necessary to create professional quality images of the natural world. We will explore exposure control and light metering, the principles of composition, the qualities of natural light, advanced digital techniques, and the philosophy and tradition of the artist in nature. Scotch for the Sophisticate

Curious about Scotch? Wonder why the different regions of Scotland produce unique flavors and characteristics? Join us as we taste Scotch from the Highlands, Islay, and other regions. Learn the difference between a blended, 12-year Scotch and a single malt Scotch whiskey. Whether you are a food and beverage professional or a casual enthusiast, this class is not to be missed. Please bring photo ID that indicates your age to class.
Beer Sensory Evaluation and Off Flavor Training
Have you ever had a beer that didn’t taste quite right, but couldn’t put your finger on the flavor? Do you homebrew and want to better diagnose the success of your next batch? Come refine your pallet and learn to evaluate beer flavors and aromas like a pro. Using a sensory spike kit, students will learn about basic off flavors including diacetyl, oxidation, DMS, infection, and acetaldehyde. Please refrain from wearing any strong perfume or cologne the night of the class. Please bring your photo ID to class.

But First, Tea!
As with wine, coming to understand and appreciate the vast number of tea blends that are available today can be quite overwhelming! Enter your local tea shop, where the second most consumed beverage in the world (after water!) can be demystified and thoroughly enjoyed. You’ll start the morning, as one should, with a cup of tea and scone. Then, get an overview of the six different types of tea through tasting and explanation of service styles. With that knowledge in hand you’ll finish by creating your own unique blend to take home.

Pinot Noir From Around the World
Pinot Noir has its beginnings in Bourgogne France but has enjoyed great success throughout Europe and the New World. We will look at six locations where Pinot Noir thrives and you will be amazed at the differences in color, aroma and flavor depending on where the Pinot Noir is planted. It’s all about the soils and the climate, called “Terroir!” Food pairing ideas will also be shared which will guarantee the success of your next Pinot Noir wine dinner. Please bring a photo ID that indicates your age to class.

Rye Whiskey: Tasting and Cocktails
Rye whiskey, one of America’s oldest spirits, is making a serious comeback. Meet the distillers from Sugar House Distillery’s grain-to-glass operation and learn about qualities that differentiate rye from other whiskey categories. We’ll also make two classic cocktails traditionally made with rye whiskey, covering cocktail history, proper technique and sourcing great ingredients. Please bring a photo ID indicating your age to class.

All About Coffee

Qigong for Women’s Health
In the literature of Chinese Daoism, a woman’s transition into perimenopause/menopause is her “second spring”. Focused on Women’s Health, this integrative Medical Qigong will create self-healing abilities in hormone balance, and help to ease common complaints such as hot flashes, insomnia, heart problems, osteo-
porosis, and emotional imbalances. Practice focused breathing, postures and movements, and mental visualizations to create opportunities for harmonizing the mind, body and spirit. A majority of the practice is standing and you will be required to do stretches on the floor. Qigong can be individualized to your personal abilities and needs, and movement modifications will be demonstrated.

Qigong Practice
Qi (chee) is defined as life force energy; gong is defined as exercise. Put it together and Qigong is a Chinese practice that exercises your life force energy. The practice is the precursor to Tai Chi and uses movements and postures to integrate Chinese acupuncture points, meridians, and internal organs in a mindful and meditative way. The gentle, rhythmic movements of Qigong reduces stress, builds stamina, increases vitality, and enhances the immune system. Students of any age or ability level can take this class and they can do it seated or standing. Co-sponsored with Tanner Dance.

Houseplants add life to your home that cannot be equaled by any other home furnishing. But, just like your outdoor plants, your indoor plants need a little TLC as well. In this class, students will learn how to identify, select, and properly care for houseplants. Light, water, space, and fertilizer requirements will be discussed and design tips will be shared. Co-sponsored with Red Butte Garden; members pay $35 + special fee (ask for section 002).

**Spring Clean Your Garden**

Temperatures are warming and you are anxious for the gardening season. It’s too early to plant but now is prime time for spring cleaning the garden. Learn what clean-up is best done in late winter/early spring - how/when to cut back ornamental grasses, how/when to prune shrubs, dividing and transplanting perennials, what to do with daffodil and tulip foliage after your bulbs finish blooming. You’ll also get a chance to learn about some of the instructor’s favorite gardening tools to make your spring clean up a bit easier. One classroom session followed by a hands-on Saturday class in the field will give you the knowledge and skills to get the gardening season off to a good start.

**Pruning 101 Workshop**

Proper pruning enhances the beauty of almost any landscape tree and shrub. It is an art and science, and when done well, pruning can turn a landscape plant into a thing of beauty. This is a pruning basics class and intended for those with limited pruning experience and will address basic pruning concepts associated with flowering trees and shrubs, vines, and groundcovers, as well as the shaping of hedges. Classroom session is lecture and will cover pruning tools, when and why to prune, and the differences between thinning and heading back. The Saturday class will be in the field getting hands-on experience so please wear appropriate clothing and bring gloves and hand pruners. If you are interested in focused pruning techniques for roses, wisteria, or fruit trees, please see additional classes.

Vegetable Propagation
While it’s possible to have a fine vegetable garden by buying young plants, starting your own veggies from seed is less expensive, offers more varieties, and allows you to harvest your favorite edibles over a longer period of time. Come explore the world of seed propagation as we learn which vegetables to start indoors, why some do better outdoors, when to start them, and how to nurture particular types of seedlings for maximum success. Factors such as lighting, heat, day length, soil, hardening off, seed sources, varieties, germination and timing will be addressed in the first class. During the second class, students will practice specialized techniques such as scarifying, transplanting, pinching and take home a tray of vegetable seeds to get a jump on the growing season. Co-sponsored with Red Butte Garden; members pay $53 + special fee (ask for section 002).

Beginning Clicker Training for Dogs

Clicker training is a clear form of communication used in positive reinforced training and is a safe, effective way to teach an animal any behavior. Originally used with marine mammals during shows and veterinary procedures, it is now commonplace in teaching zoo animals to be handled by keepers and vets. Your own four footed friend can learn not to pull on the leash, come when called, and perform all sorts of cool tricks! This class is not intended to correct serious behavioral issues with non-socialized or reactive dogs. Your dog must be people and dog friendly. Do not bring your dog to the first class. On
the second and third nights only, please have your
dog in a flat collar or harness, on a 5-6 foot leash,
and please bring plenty of very small soft train-
ing treats for your dog. Please no choke chains or
prong collars. Special fee covers clicker and treat
bag. Class is limited to 8.

Introduction to Skate Skiing
Skate skiing, also known as freestyle, is a high-intensity
winter sport that uses a unique technique for an aerobic,
full-body, low-impact workout. This workshop intro-
duces you to basic skate-ski technique, including weight
transfer, edging, and timing, V1, V2, and V2-alternate
styles, and poling. We will also review equipment, waxing, training, trails and trail etiquette, first aid, and safety. You are responsible for your own equipment (rent skate skiing packages at the U’s Outdoor Recreation Center or other local sporting goods stores).

Bikepacking - Adventure Camping by Mountain Bike
Bikepacking is a great way to explore Utah’s diverse landscapes, from deserts to high mountains. Mountain bike camping enables you to cover more ground than backpacking while enjoying the peaceful experience of non-motorized travel. This course, taught by the lead organizer of the SLC Bikepacking Meet-up, will provide you with an overview of essential gear and organization, bike selection, route finding / map making, carrying water (for desert trips), and safety / preparedness getting you ready for your next backcountry adventures. No class April 9.

Animal Tracking
Springtime, when the ground is moist or lightly covered with snow, is a perfect time to see animal tracks and the conditions also allow for easy hiking. There’s a good chance of finding moose, elk, deer, rabbit, squirrel, and other small rodent tracks as we explore stream banks and meadows. If we’re lucky, we could also spot coyote, porcupine, bear, mountain lion, and bobcat. We’ll investigate the particular characteristics, size, age, and direction of travel of the tracks we see, as well as look at scat and how it relates to the animal identification process. Students will be notified where to meet before class.

Outdoor Adventure Gear and Prep
There are so many places to explore in Utah, from the desert canyons in the San Rafael Swell to the Uinta mountain basins to our very own Wasatch trails. How deep do you want to go? If you’re new to outdoor recreation in Utah this class will answer your questions about how to get started as a day tripper or car camper. Find out what gear works for your type of outing, from water filters to safety and medical supplies to tents. Learn easy repair tricks that will help you keep your gear longer. And learn where to go, from wilderness to BLM to National Parks, and what amenities to expect there. Our second meeting will take place outdoors where we will practice packing our daypacks with necessary supplies and then head up a local trail.

WRITING/CREATIVE

Creative Writing
How do we tell stories? What do we include in writing, and what remains unsaid? Build your voice as we focus on a group of specific techniques for shaping and informing your creative skills, including character, plot, point of view, description, dialogue, and setting. In class, we will read short selections of writing to see what techniques we can beg, borrow, and steal from them. We will experiment with in-class writing exercises and read and discuss each other’s work. Writing can be inventive, illogical, chaotic, unexpected, strange, and wonderful. In this class, we will practice seeing the world in new ways and then recreating that experience on the page.

Creative Writing II
Taught in a workshop format, this course will get your creative juices flowing as we expand on topics covered in Creative Writing: voice, tone, point of view and use of tense along with journeying into literary elements such as metaphor and simile, symbolism, structure, and others. This class is a fun way to build and develop the skills in an encouraging and supportive environment. Come prepared to read, write, and talk. This course is designed and required to be taken following Creative Writing (LLWRC 780).

Creative Writing Bootcamp
Have you always wanted to write creatively but never had the chance to start? Or is your writer-self blocked and unable to finish anything? In Creative Writing Bootcamp, we’ll launch into a series of generative exercises designed to give you plenty of material for your own stories. In between exercises, we’ll share our work in an open and joyous environment, discuss craft, and explore how to incorporate writing into daily life. You’ll leave class with a series of flash fictions ready to be polished or expanded in your writing practice.

Writing Fantastic Fiction: Fantasy and Sci-Fi
Explore ways to use familiar language and reality to create the new or transformed worlds of fantastic fiction—including fantasy, science fiction, fabulist, surrealist, speculative, or fairy tales. We’ll look at folk and fairy tales to teach us about designing the shape of a story; read different published fictions to ponder why and how we might weave magic into the reality of a world; experiment with exercises that will help us describe imaginary cultures, unlikely geography, and impossible technologies, and, of course, we’ll write. Throughout the class, you’ll draft, discuss, and revise your own fantastic fiction. What new ways of seeing will you discover in order to bypass the limits of space and time to visit foreign worlds of your own creation? No class Feb 18.

Love Stories
There are many types of affection: romantic, familial, obsessive, enduring, and selfless. Love, in all its many forms, is one of the most powerful emotions portrayed through story. However the sentiment of love is commonly wrapped in three identical, non-descriptive words, which lack power on the page. After a discussion of craft, instruction on “showing” rather than “telling”, practice in effective dialogue, analysis of inspiring works, prompts via Conversation Hearts, and an exploration of your own memories—you’ll write several stories of love without ever using the three words, “I love you”.

Creative Nonfiction I
Explore this multi-faceted and popular genre, which ranges in scope from literary journalism to personal narrative and memoir, in this interactive 6-week course. Through sample readings, discussion, in-class writing exercises, and writing assignments, we will learn to use the narrative devices—narrator stances, characterization, verb tenses, dialogue, and scene and setting—that make this form of prose especially fascinating and appealing. Open to writers of all levels of experience who are confident with basic sentence structure and composition.
Creative Nonfiction II

Continue to expand the skills presented in Creative Nonfiction I in this 8-week class. We will be looking, and then looking again, at our own work in order to see, as author Lillian Hellman put it, what was there for [you] once, what is there for [you] now. Writers who have a work in progress will most benefit from the class, a large percentage of which will be devoted to meaningful critique and revision of student work. Prerequisite: Creative Nonfiction I or equivalent experience. This class offers ongoing support in a productive and nurturing environment and is designed to be repeated as often as you desire. No class May 14.

Weird Fiction Writing Workshop

Weird fiction is a category that includes surreal-ist, absurdist, fantasy, and sci-fi writing, yet writers of any genre/form can benefit from getting a little weird from time to time. Get comfortable in a new “zone” by playing surrealist games (a form of writing prompts); learn to channel nonsensical inspiration; and read some fabulous short stories by authors including Leonora Carrington, Haruki Murakami, and Karin Tidbeck. Once you’ve seen the possibilities of the weird, you’ll write and share your own short pieces. Expect the Unexpected—it’s full of possibilities!

Literary Querying

So you’ve written a book. Now what? Approaching the publishing world can be a lonely and daunting task. This class will give you a jump start by providing the knowledge and skill required to navigate the world of agents and publishers. It is recommended (but not necessary) that you bring a finished piece of work you are trying to place. This is a workshop heavy class, where we’ll polish your pages and develop a plan to give you the best chance in the great publishing hunt.

Memoir Intensive

Throughout history personal stories have been written and shared. Though motive, definition and popularity of memoir has shifted throughout time, memoir continues to be a reflection of our humanity, a recounting of our experiences written from one’s own knowledge. If you’re ready to focus the lens of your writing inward, come explore this highly personal genre and discover its relationship with fiction, personal essays, and autobiographies. We’ll discuss and practice strategies of reflection, the difference between “narrator” and “character” in memoir, and address the difficulties with including others in our personal stories. We’ll also look at and closely read examples of memoir structures, and observe how they differ from traditional “plots” in fiction. Be ready to read, write, and share as we tackle the ultimate subject—you!
Journaling - A Guide to Daily Writing Practice
Have you always wanted to write, but never found a place to start? Do you have a story to tell that you don’t want anyone else to hear? Or maybe the well of creativity that long watered your writing has run dry. If so, daily journaling could help. A journal is a safe space to explore thoughts, emotions, and personal histories, to record observations, and to better understand yourself and your place in the world. It’s also an invaluable tool for writers of all skill levels to hone their craft and voice. We’ll talk about how to cultivate a rewarding daily writing practice, where to find inspiration, and how to keep the pen moving even when what’s coming out of it is less than ideal.

Guided Flash Fiction
Flash fiction tells a full story in about 1000 words, which compels a writer to make every word count, and learn to self-edit like a pro. Experiment with a variety voices and styles that may become the catalyst for a longer piece. Learn to use guides in the form of an image and different styles of music to kick-start your brainstorming process. Instruction about story arc, character arc, showing not telling, and general craft will kick start class followed by time to write, refine your work, share, and receive feedback.

Writing Dynamic Characters
Our ability to create resonant characters on the page measures us in both fiction and nonfiction. This workshop focuses on equipping you with a toolkit to summon dynamic characters in short stories, personal essays, novels, memoirs, blogs, and graphic arts. Tap into divergent sources including psychology, screenplay writing, meditation, interviews, and imagery. Learn how to birth, shape, and craft dialogue and action. Melt your writer’s block by falling in love with your characters and learn how to listen to their voices as you write.
