Sculling: A Four-session Workshop
Directions to the Boathouse

Take I-80 as if you were going to RENO – get off at the Saltair exit – exit 104. At the end of the exit you will be facing Saltair. Turn left. Go to the marina. Just before you get to the park office the road splits – turn left. Drive past the docks, which will be on your right. Next, continue past the dry storage area (the large fenced area on your left). The boathouse is just past the dry storage on your left (it looks like a shed). Wait at the boathouse.

If the weather is iffy, call 466-0460 before class to get an update. We will reschedule if necessary.
