

# PRE COLLEGE

AT THE U

CAMPUS PROGRAMS  
FOR HIGH SCHOOLERS

JUNE-AUGUST 2018

TURN OVER  
FOR MORE  
CLASSES

**YOUTH EDUCATION**  
THE UNIVERSITY OF UTAH

CLUB U | CAMPUS CAMPS | PRE-COLLEGE

## *kickstart your college experience*

Pre-College at the U provides you with a jump-start on college by providing a unique opportunity to study, learn, and explore The University of Utah with your friends and peers. You'll meet with instructors, hang with future classmates, and participate in a variety of STEAM-based programs to build skills you can utilize to further your academic growth and prepare for college. The Pre-College experience wouldn't be complete without a proper tutorial on how to flash the "U" and a hardy roar of, "Go Utes!"

### PRE-COLLEGE AT THE U

#### **04 MAJOR EXPLORATION & RESIDENTIAL**

**06 MAJOR EXPLORATION**

**07 RESIDENTIAL CAMP**

#### **08 HIGH SCHOOL FOR-CREDIT & TEST PREP CLASSES**

**09 HIGH SCHOOL FOR CREDIT**

**10 TEST PREP CLASSES**

**10 ENRICHMENT CLASSES**

#### **12 STEAM-BASED CLASSES**

**14 SCIENCE AND TECHNOLOGY**

**16 CREATIVE ARTS**

**17 ENGINEERING AND MATH**

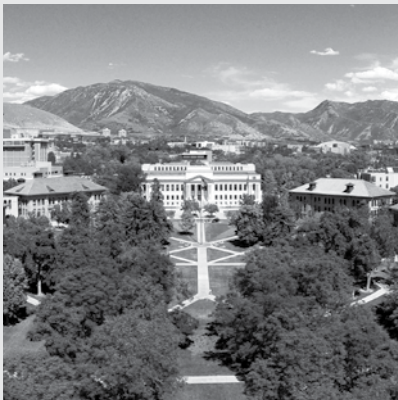

**17 SPORTS, RECREATION, AND LEISURE**

## HOW TO REGISTER

1. **Online:** The online registration system will allow the registration of several children at the same time. If you have an account and are unable to log in, please call us.
2. **By Phone:** 801-581-6984
3. **In Person:** Call to check office hours as they vary seasonally.

Payment is due at time of registration. Tuition can be paid with cash, check, or all major credit cards. Parents/Guardians will receive confirmation via email, along with a reminder email one week before class begins.

### YOUTH EDUCATION CONTACT INFO

1901 E. South Campus Dr.  
1195 Annex Building (Wing A)  
Salt Lake City, UT 84112-9359

**Phone:** 801-581-6984

**Website:** [youth.utah.edu](http://youth.utah.edu)

## YOUTH EDUCATION POLICIES

### PHOTO ID REQUIRED FOR PICK-UP

Anyone picking up students, ages 5-13, must be listed as approved to do so (including parents and guardians) and provide a photo ID for check-out. Students will not be checked out to those without proper identification. Children, ages 9-13, will be allowed to check themselves out with written permission from the parent or guardian.

### EARLY ARRIVALS AND LATECOMERS

Parents/Guardians must be prompt in dropping off and picking up students. The University of Utah does not assume responsibility for any child dropped off unattended. Please do not drop off children more than ten minutes before a class begins. If a child is not picked up promptly after class, late fees will be charged (\$5.00 for each 10 minutes after the class has ended). This does not apply due to any emergencies. Please contact the Youth Education staff to alert us to an emergency situation.

### RAIN POLICY FOR OUTDOOR CLASSES

If you are not contacted by phone, do not assume the class is canceled due to weather. If you have not received any prior notice, please bring students to the scheduled location where you will be met by an instructor or staff member and advised of the backup location or rescheduled date. You will be asked to transport your child to and from the backup location.

## REFUNDS

Full refunds will be given for classes dropped up to four full weeks prior to the first day of class. No refunds will be authorized after the drop deadline has passed or in the event of a dismissal. Please contact us if you have extenuating circumstances beyond student or parent/guardian control.

### CANCELLATION OF CLASS

If fewer than the minimum number of students enroll in a class, it will be canceled. Parents/Guardians will be notified in advance and will receive a full refund.

### PARKING

Parents/Guardians and students are expected to abide by parking restrictions at all course locations. Youth Education tries to schedule classes in buildings near pay lots, where the first 15 minutes are free. Students of driving age may purchase temporary permits from Parking Services if they are driving themselves. Vehicles may be ticketed if parked in a restricted area or without a parking permit. For questions concerning parking restrictions, visit [parking.utah.edu](http://parking.utah.edu) or call 801-581-6415.

### PHOTO RELEASE

Parents/Guardians, of registered students, grant Youth Education and co-sponsored camps permission to use any photography of or written statements made by the student during any Youth Education program for marketing purposes.

## DISCIPLINE POLICY

The purpose of good classroom management is to provide an environment conducive to learning. Teachers have the right to teach and students have the right to learn. An extremely disruptive student interrupts the learning experience and upsets the other children.

### Students are expected to abide by these rules:

1. Follow directions
2. Show respect with your words and body
3. Think safety first!

Our policy in handling disruptive children is as follows: First, the instructor will discuss the situation with the student; on the second occurrence, the instructor will notify the parent. If the situation continues uncorrected, the Youth Education staff will contact the parent and the student will be dismissed. No refunds will be authorized in the event of a dismissal.

# MAJOR EXPLORATION

*a major decision*

Prepare for the career of your dreams by exploring your future college major over the summer. Immerse yourself in campus life by taking classes taught by University of Utah faculty and experienced graduate students. These educators will become your mentors that will inspire, motivate, and encourage you to work hard and be passionate about your academic experience. Make this summer count!

eae.

**ARCHITECTURE + PLANNING**  
THE UNIVERSITY OF UTAH

**U** **HEALTH**  
UNIVERSITY OF UTAH

# *new!* RESIDENTIAL CAMP

Need a staycation from the family and want to experience the dorm life? Join the Department of Physics and Astronomy for an epic college experience. Spend a week staying on campus fully immersed in the universe.

## **THE UNIVERSE FOR FUTURE SCIENTISTS (pg. 7)**

Come explore the universe and become an Astronomer for a week! Live in the Lassonde Studio while you study the cosmos and get a taste of college life. During the day, you'll go deep into learning about galaxies, stars and dark matter. This camp will help shed some light on the so-called darkness of the universe and delve into the physics of these objects.

THE UNIVERSITY OF UTAH  
Department of  
Physics & Astronomy

## MAJOR EXPLORATION

### EAE 3D HARD SURFACE MODELING (AGE 14-17)

Immerse yourself in the world of hard surface modeling with this intensive design course. From samurai swords to pickup trucks, learn about asset design and production pipelines for creating realistic hard surfaces for machinima, games, and CG with a focus on high-poly modeling. You will utilize advanced graphics software packages that are prominent in the video game industry such as Maya and ZBrush to create portfolio pieces. Co-sponsored with the U of U's EAE program.

NOTE: *Lunch provided daily.*

#### YETEC 138-001

MTWThF, Jun 18-22 • 9 AM-4 PM  
LOCATION: Campus • SLC  
FEE: \$290 + \$55 special fee

### EAE BEGINNING 3D MODELING (AGE 14-17)

Join EAE in this intensive modeling workshop and create a 3D digital model of your own design, be it a character, creature, tool or vehicle for a video game, machinima or movie. Learn everything from the basics of professional 3D modeling software, like Maya and ZBrush, through the process of fully realizing your creations. Co-sponsored with the U of U's EAE program.

NOTE: *Lunch provided daily.*

#### YETEC 141-001

MTWThF, Jun 11-15 • 9 AM-4 PM  
LOCATION: Campus • SLC  
FEE: \$290 + \$55 special fee

### EAE DIGITAL FIGURE SCULPTING (AGE 14-17)

Explore the depths of high-res 3D sculpting in this week-long course, geared toward photorealistic models for movies and CG animation. Using one of the most prominent sculpting tools in the industry, ZBrush, students will learn everything from basic to advanced techniques and develop their own portfolio pieces. Co-sponsored with the U of U's EAE program.

NOTE: *Lunch provided daily.*

#### YETEC 144-001

MTWThF, Jun 25-29 • 9 AM-4 PM  
LOCATION: Campus • SLC  
FEE: \$290 + \$55 special fee

### EAE GAME DESIGN STUDIO (AGE 14-17)

Take the next step in your game development career and start creating games from the ground up. Learn techniques from EAE graduate students in this intensive class. Using professional tools like Unreal Engine and Unity, start developing the skills needed to become a level designer and gameplay programmer. Combine everything you've learned, from coding to design, to build a final prototype, in this in-depth, hands-on game development class. Co-sponsored with the U of U's EAE program.

NOTE: *Lunch provided daily.*

#### YETEC 123-001

MTWThF, Jul 16-20 • 9 AM-4 PM  
LOCATION: Campus • SLC  
FEE: \$320 + \$55 special fee

#### YETEC 123-002

MTWThF, Aug 6-10 • 9 AM-4 PM  
LOCATION: Campus • SLC  
FEE: \$320 + \$55 special fee

### DISCOVER PRODUCT DESIGN (AGE 14-17)

Product design is everywhere, from the chair you sit on, to the phone in your hand and the cars on the street. This summer explore product design from digital graphics to physical form. Learn how to solve problems of different scales and perspectives through the design thinking process. Study with University of Utah faculty and student alumni to observe, record, and create designs to present to local design professionals and share with family and friends. Co-sponsored with the U of U's College of Architecture + Planning. NOTE: *Class meets in the Studio Space on the first floor in the Architecture Building (ARCH). Lunch provided daily.*

#### YEHS 454-001

MTWThF, Jun 11-15 • 9 AM-4 PM  
LOCATION: ARCH RM, Campus • SLC  
FEE: \$350 + \$55 special fee

### **NEW!** DISCOVER ARCHITECTURE (AGE 14-17)

Become an Urban Planner for a week and use your creativity to revitalize and modernize the space around you! Immerse yourself in the study of cities, places large and small, learn how to create communities, accommodate growth and how the environment factors into your plans. You will visit local firms, and develop your own plan with design and urban ecology concepts in mind to present to local urban planners. Co-sponsored with the U of U's College of Architecture + Planning.

**NOTE:** *Class meets in the Studio Space on the first floor in the Architecture Building (ARCH). Lunch provided daily.*

#### **YEHS 450-001**

MTWThF, Jun 18-22 • 9 AM-4 PM  
LOCATION: ARCH RM, Campus • SLC  
FEE: \$350 + \$55 special fee

### **NEW!** DISCOVER URBAN PLANNING (AGE 14-17)

Explore architecture as a possible college major and career! Immerse yourself in the college experience, study existing buildings, visit local firms, and create your own model, as you learn the design processes and architectural concepts that shape all types of buildings. Team up with University of Utah faculty and graduate students to develop your own project. Discover what it is like to imagine something and then bring it to life! Co-sponsored with the U of U's College of Architecture + Planning.

**NOTE:** *Class meets in the Studio Space on the first floor in the Architecture Building (ARCH). Lunch provided daily.*

#### **YEHS 452-001**

MTWThF, Jun 25-29 • 9 AM-4 PM  
LOCATION: ARCH RM, Campus • SLC  
FEE: \$350 + \$55 special fee

### **NEW!** HEALTH AND HUMAN MOVEMENT (AGE 15-17)

Have you ever watched a professional skier, dancer, soccer player, or any other athlete and wondered, how do they do that? Now you can find out! In this camp, you will discover how incredible the human body is by touching hearts, lungs, bones, and muscles. You will see how researchers and doctors measure a person's endurance, strength, and power by testing it on yourself and your classmates. You will learn how the brain develops new skills, and how computers can be used to track your body's movements. You will cook a delicious and nutritious meal, and test the nutrients that float in your blood. Gain a deeper understanding of health and human movement through this hands-on experience, and impress your friends with your knowledge of science and the human body. Co-sponsored with the U of U's College of Health.  
**NOTE:** *For students going into tenth, eleventh, and twelfth grade. Students will visit the human cadaver lab as well as other laboratories, and should come dressed and ready for physical activity. Lunch provided daily.*

#### **YEHS 451-001**

MTWThF, Jul 9-Jul 13 • 9 AM-4 PM  
LOCATION: HPR N 235, Campus • SLC  
FEE: \$365 + \$110 special fee

## RESIDENTIAL CAMP

### **NEW!** THE UNIVERSE FOR FUTURE SCIENTISTS (AGE 14-17)

Come explore the universe and become an Astronomer for a week! Live in the Lassonde Studios while you study the cosmos and get a taste of college life. During the day, you'll go deep into learning about galaxies, stars, and dark matter. This camp will help shed some light on the so-called darkness of the universe and delve into the physics of these objects. You'll attend personal lectures and demos from the U of U astronomers to help demonstrate the physical properties of objects we can only see through a telescope. Each night you'll learn how to use the telescopes at the U's own Observatory to see objects with your eye and take genuine data with astronomical cameras and spectrographs. Come explore the final frontier and go further than you've gone before. Co-sponsored with the U of U's Department of Physics and Astronomy.

**NOTE:** *For students going into tenth, eleventh, and twelfth grade. This is an overnight camp, students stay on campus in the Lassonde Studios for the week. Price includes room and board, activities, and material fees.*

#### **YEHS 453-001**

MTWThF, Jul 16-20 • Overnight  
LOCATION: Campus • SLC  
FEE: \$469 + \$330 special fee  
**NOTE:** *Drop off is Monday, July 16 at 10 AM and pick up is Friday, July 20 at 4 PM at the Lassonde Studios.*

# TEST PREP, ENRICHMENT, & HIGH SCHOOL FOR CREDIT

*prep for your future*

Use the summer to knock out a few high school credits to ensure you are set to graduate from high school and pursue your dreams. Summer is also a great time to prep for the ACT to get the score you want. Don't sleep your summer away - stay engaged and use your time wisely to put yourself on the path to success!

## FEATURED CLASSES

**AP-LEVEL PHYSICS, CALCULUS, AND CHEMISTRY (pg.11),  
STUDY & TEST TAKING SKILLS (pg.11), CREATIVE WRITING (pg.09),  
AND INTENSIVE MATH (pg.09)**

# HIGH SCHOOL FOR-CREDIT

## INTENSIVE CREATIVE WRITING (GRADE 9-12)

Practice the craft and art of imaginative writing. Explore the elements of language, form, voice, and style that make up poetry, fiction, and personal essay. Use exercises and models of professional and student writing to stimulate the imagination. Through the workshop process, become sensitive to specific yet constructive commentary. Attendance is mandatory for students wishing to earn credit for this course. NOTE: *This course may be taken in conjunction with English Lit & Comp for one full year of English credit, or one-half English elective credit. Not all schools may accept the credit, check with high school counselor or registrar to confirm.*

### YEHS 102-001

MTWTh, Jun 11-Jul 6 • 9:30 AM-12:30 PM  
LOCATION: Campus • SLC  
FEE: \$185 + \$15 special fee  
NOTE: *The week of July 4 class will meet Mon, Tues, Thurs, and Fri. No class Wednesday, July 4.*

## INTENSIVE ENGLISH LITERATURE AND COMPOSITION (GRADE 9-12)

Broaden your base of literature and reinforce writing skills in critical analysis and interpretation of literature. Read and discuss English literature selections. Class activities will reinforce learning and strengthen writing abilities. Attendance is

mandatory for students wishing to earn credit for this course.

NOTE: *This course may be taken in conjunction with Creative Writing for one full year of English credit, or one-half English elective credit.*

*Not all schools may accept the credit, check with high school counselor or registrar to confirm.*

### YEHS 101-001

MTWTh, Jul 16-Aug 10 • 9:30 AM-12:30 PM  
LOCATION: Campus • SLC  
FEE: \$185 + \$15 special fee  
NOTE: *The week of July 24 class will meet Mon, Wed, Thurs, and Fri. No class Tuesday, July 24.*

## INTENSIVE SECONDARY MATH I HONORS (GRADE 8-10)

Students will deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomenon, and in part by applying linear models to data that exhibit a linear trend. Students will use properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge. Algebraic and geometric ideas are tied together. Students will experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. This is a condensed honors class that is very fast-paced and designed for motivated students. Attendance is mandatory for students wishing to earn credit for this course. NOTE: *Eleventh and twelfth grade students may register with instructor permission. Course is good for one full year of high school credit, but not*

*all schools may accept the credit. High school credit may not be available for those students entering the eighth grade. Check with high school counselor or registrar to confirm.*

### YEHS 201-001

MTWTh, Jun 11-Aug 10 • 9:30 AM-12:30 PM  
LOCATION: Campus • SLC  
FEE: \$370 + \$30 special fee  
NOTE: *No classes the week of July 9-13. The week of July 4 class will meet Mon, Tues, Thurs, and Fri. The week of July 24 class will meet Mon, Wed, Thurs, and Fri. No class Wednesday, July 4, or Tuesday, July 24.*

## INTENSIVE SECONDARY MATH II HONORS (GRADE 8-12)

Study quadratic equations, their graphs, and methods of solving systems of equations with two or more unknowns. Investigate real number exponents and complex numbers. Develop proficiency with the algebra of polynomials and rational functions as well as the composition of functions. Become familiar with graphing technology. Class is fast-paced and designed for motivated students. Attendance is mandatory for students wishing to earn credit for this course. NOTE: *Students will need a scientific calculator. Course is good for one full year of high school credit, but not all schools may accept the credit. High school credit may not be available for those students entering the eighth grade. Check with high school counselor or registrar to confirm.*

### YEHS 202-001

MTWTh, Jun 11-Aug 10 • 1:30-4:30 PM  
LOCATION: Campus • SLC  
FEE: \$370 + \$30 special fee

NOTE: *No classes the week of July 9-13. The week of July 4 class will meet Mon, Tues, Thurs, and Fri. The week of July 24 class will meet Mon, Wed, Thurs, and Fri. No class Wednesday, July 4 or Tuesday, July 24.*

## INTENSIVE SECONDARY MATH III HONORS (GRADE 9-12)

Study relations, functions and their graphs, systems of equations, polar coordinates and complex numbers, conic sections, and exponential and logarithmic functions. Expand on use of graphing technology. Class is fast-paced and designed for motivated students. Attendance is mandatory for students wishing to earn credit for this course. NOTE: *Course is good for one full year of high school credit, but not all schools may accept the credit. High school credit may not be available for those students entering the eighth grade. Check with high school counselor or registrar to confirm. Students will need a graphing calculator.*

### YEHS 203-001

MTWTh, Jun 11-Aug 10 • 1:30-4:30 PM  
LOCATION: Campus • SLC  
FEE: \$370 + \$30 special fee

### YEHS 203-070

MTWTh, Jun 11-Aug 10 • 1:30-4:30 PM  
LOCATION: 10011 Centennial Pkwy #100 • Sandy  
FEE: \$370 + \$30 special fee  
NOTE: *No classes the week of July 9-13. The week of July 4 class will meet Mon, Tues, Thurs, and Fri. The week of July 24 class will meet Mon, Wed, Thurs, and Fri. No class Wednesday, July 4 or Tuesday, July 24.*

## TEST PREP CLASSES

### INTENSIVE PSAT PREP CLASS (AGE 14-17)

In this week-long intensive course we will be examining the PSAT and focusing on a comprehensive overview of the content and concepts within the test, as well as the introduction of specific test prep strategies. This course is designed ONLY for those taking the highest level PSAT/NMSQT, which is used for determining National Merit Scholarship status. Co-sponsored with Higher Ground Learning.

NOTE: *Students who have taken an SAT workshop at Higher Ground Learning should only enroll in the PSAT after consulting with Higher Ground due to the similarity in content and structure between the two tests. This workshop is open to all currently enrolled high school students regardless of age.*

#### YEHS 707-001

MTWThF, Aug 6-10 • 1-3 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$175 + \$50 special fee

### INTENSIVE SAT PREP CLASS (AGE 14-17)

This intensive two-week test prep course focuses on the SAT exam, providing a thorough review of the core content while also emphasizing strategies that help students diagnose and solve test questions successfully. All students will receive the Higher Ground Test

Preparation Manual, 12 hours of instruction, 2 practice tests to assess performance level, assessment reports, and supplemental materials. Co-sponsored with Higher Ground Learning.

NOTE: *The test prep courses are intended for high school students who are planning to take the SAT and is open to all currently enrolled high school students regardless of age. Not available for high school credit. Scholarship opportunities available to qualifying applicants.*

#### YEHS 708-001

TWThF, Jul 10-20 • 10 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$225 + \$75 special fee  
NOTE: *Initial SAT Diagnostic Test is Tuesday, July 10 9 AM-12:30 PM; Second Diagnostic Test is Thursday, July 19 9 AM-12:30 PM.*

### INTENSIVE ACT PREP CLASS (AGE 14-17)

This intensive two-week test prep course focuses on the ACT exam, providing a thorough review of the core content while also emphasizing strategies that help students diagnose and solve test questions successfully. All students will receive the Higher Ground Test Preparation Manual, 12 hours of instruction, 2 practice tests to assess performance level, assessment reports, and supplemental materials. Co-sponsored with Higher Ground Learning.

NOTE: *The test prep courses are intended for high school students who*

*are planning to take the ACT and are open to all currently enrolled high school students regardless of age. Not available for high school credit. Scholarship opportunities available to qualifying applicants.*

#### YEHS 715-001

MTWThF, Jun 26-Jul 6 • 1-3 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$225 + \$75 special fee  
NOTE: *Initial ACT Diagnostic Test is Tuesday, June 26 1-4 PM; Second Diagnostic Test is Thursday, July 5 1-4 PM. No class on Wednesday, July 4.*

#### YEHS 715-002

MTWThF, Jul 23-Aug 3 • 10 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$225 + \$75 special fee  
NOTE: *Initial ACT Diagnostic Test is Monday, July 23 9 AM-12:30 PM; Second Diagnostic Test is Thursday, August 2 9 AM-12:30 PM. No class on Tuesday, July 24.*

## ENRICHMENT CLASSES

### SECRETS OF STANDING OUT: PERSONAL BRANDING WORKSHOP (AGE 14-17)

Override the ability to be overlooked. This class will teach you what personal branding is and why it is important. Using examples, activities and discussion, discover how face-to-face meetings and social media interactions can be used to develop and promote your personal brand. Join us in this

self-discovery workshop designed to help you stand out from the crowd by identifying, creating, and promoting how people view you and your best qualities.

#### YEHS 250-001

MWThF, Jul 23-27 • 9 AM-12 PM  
LOCATION: Campus • SLC  
FEE: \$100 + \$20 special fee  
NOTE: *No class on Tuesday, July 24.*

### CRAFTING COLLEGE ADMISSIONS ESSAYS (AGE 14-17)

In the calm before the September storm, join Higher Ground for a writing class guaranteed to be a boon to students looking to get a head start on their college applications. Students will learn specific strategies to get over the hump of starting a college essay and will discover how to write more confidently and creatively. The class closely examines essay prompts and students gain insight by writing and participating in feedback sessions with each other and the instructor. All students, regardless of their writing level, ability, or confidence are welcome to enroll in the workshop, and advanced writers will be accounted for and pushed to succeed in ways appropriate for their needs. Co-sponsored with Higher Ground Learning.  
NOTE: *This workshop is open to all currently enrolled high school students regardless of age.*

#### YEHS 106-001

MTThF, Jul 2-6 • 9 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$125 + \$60 special fee  
NOTE: *No class on Wednesday, July 4.*

## STUDY AND TEST-TAKING SKILLS: HIGH SCHOOL (AGE 14-17)

High school presents new sets of challenges to students and this workshop can help them conquer those challenges to achieve their goals! Addressing all learning styles, this class offers a highly innovative curriculum that will show students how to be successful in the classroom and throughout their academic journey. This course is comprised of five units specifically tailored to students in high school: organization and time-management, maximizing classroom learning, note-taking, test preparation, and subject test taking. Group exercises will center on establishing effective habits that will expand learning and minimize stress in the classroom and at home. Co-sponsored with Higher Ground Learning.

NOTE: *this class **does not** cover standardized testing like the SAT or ACT.*

### YEHS 732-001

MWThF, Jul 23-27 • 1-3 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$105 + \$55 special fee  
NOTE: *No class on Tuesday, July 24.*

## INTRO TO AP-LEVEL CALCULUS (AGE 14-17)

Are you planning to take Calculus next year, or maybe you just want to learn what this exciting branch of mathematics is all about? In this workshop, we will be introducing concepts and problems related to several fundamental areas of calculus, including limits, differentiation, applications of derivatives, and integration. This workshop will

give any student a head start on the concepts covered in an AP-level calculus class. This course is designed for students who have not studied Calculus before and is open to all currently enrolled high school students regardless of age. Co-sponsored with Higher Ground Learning.

NOTE: *This course is not designed as an introduction for AP Physics C, and is designed for those who have not taken a Physics class before.*

### YEHS 204-001

MTWThF, Aug 13-17 • 10 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$95 + \$50 special fee

## INTRO TO AP-LEVEL PHYSICS (AGE 14-17)

If you plan to take AP Physics 1, 2, or IB physics next year, this workshop is for you! This class will mostly cover Newtonian mechanics, including, but not limited to: kinematics, Newton's laws of motion, work, energy, and power. Students will learn to think about problem-solving and the world in general from a physicist's perspective! All material covered will provide a head start for an AP or IB high school physics course. Co-sponsored with Higher Ground Learning.

NOTE: *This course is not designed as an introduction for AP Physics C, and is designed for those who have not taken a Physics class before.*

### YEHS 205-001

MTWThF, Aug 6-10 • 10 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$95 + \$50 special fee

## INTRO TO AP-LEVEL CHEMISTRY (AGE 14-17)

If you're going to take AP Chemistry next year this is the workshop for you! We will be covering some of the Big Ideas of AP Chem including structure, bonding, kinetics, and equilibrium. This workshop will stress not just the conceptual side of Chemistry, but also will incorporate mathematics and the analyzation of data within a holistic overview of the material. Students should have a foundation in Chemistry, preferably General Chemistry, before taking this workshop. This overview will give every student a significant edge when beginning AP Chem in the fall! Co-sponsored with Higher Ground Learning.

NOTE: *This workshop is open to all currently enrolled high school students regardless of age. Not for high school credit.*

### YEHS 206-001

MTWThF, Jul 30-Aug 3 • 1-3 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$95 + \$50 special fee

## STUDY AND TEST-TAKING SKILLS: AP CLASSES (AGE 14-17)

AP classes are a challenge, and AP Study Skills can help you set yourself up for success. In this workshop we will go over time management, studying effectively for tests, essay writing, and other important study skills related to the extra demand of AP level courses. *Study skills are sought please review one of Higher Ground Learning's other great classes!* Co-sponsored with Higher Ground Learning.

NOTE: *This class is for those registered for one or more AP classes in the coming school year - if general*

### YEHS 733-001

TWThF, Aug 14-17 • 1-3 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$105 + \$55 special fee

## LEADERS IN TRAINING (L.I.T.) PROGRAM (AGES 15-17)

Take part in a three-week comprehensive leadership experience with opportunities to work collaboratively with others. Spend time on campus, learning about your leadership style and unique strengths. After developing a solid skill base, apply these leadership skills when you join Club U camps to shadow the counselors and better understand the real life dynamics of leadership in a summer camp setting. Design activities for Club U Campers in the third and final week. Step into the camp experience for a more prominent role and take the reins to lead activities with the campers! After you complete the L.I.T. program, you will have the opportunity to volunteer in Club U as staff aides throughout the summer. And who knows, this may translate into employment next year!

### YECU 30

MTWThF, Jun 11-29 • 8 AM-3:15 PM  
LOCATION: Campus • SLC  
FEE: \$230 + \$165 special fee

# STEAM-BASED LEARNING

*full steam ahead*

In a world that's becoming increasingly complex, you need to be equipped with the knowledge and skills to solve tough problems, gather and evaluate evidence, and make sense of information. These are the types of skills you learn through hands-on experiences in science, technology, arts, engineering, and math—subjects collectively known as STEAM.

## FEATURED CLASSES

**ESPORTS SERIES** (pg.14), **BIOCHEMISTRY AND BEAUTY** (pg.14),  
**OUTDOOR DISCOVERY: ALL-INCLUSIVE ADVENTURE** (pg.17),  
**KITCHEN THROWDOWN** (pg.19), **FASHION DESIGN** (pg.16)

## SCIENCE AND TECHNOLOGY

### BIOCHEMISTRY AND BEAUTY

(AGE 14-17)

Dream of creating your own beauty line? Wonder what makes up your makeup? Join the School of Medicine and explore the science behind beauty essentials. Create skin, hair, and other beauty products while learning about science, chemistry, and biochemistry. You'll even leave class with a small inventory of several different products to jump start own line! Co-sponsored with the U of U's School of Medicine

**YESCI 130-001**

MTWThF, Jun 25-29 • 9 AM-12 PM  
LOCATION: Campus • SLC  
FEE: \$140 + \$55 special fee

### FORENSIC DISSECTION AND ANATOMY LAB (AGE 14-17)

You could be the next CSI medical expert in this unique forensic lab class! Modeling a human autopsy used by pathologists, conduct a detailed dissection of a preserved fetal pig. Investigate all the organs and organ systems, examine slides of tissue types, and learn to suture incisions. Understand the techniques of forensic anthropologists to solve a mystery of some "found human bones". Become a forensic botanist by dissecting and observing the anatomy of flowers to solve a murder mystery. Activities will also include films, microscope work, and field trips to the U of U medical

and/or science labs, and opportunities to meet with real pathologists/forensic specialists. You will even get to take home your very own dissection kit for future studies!

NOTE: *Lunch provided daily.*

**YESCI 159-001**

MTWThF, Jun 25-29 • 9 AM-3 PM  
LOCATION: Campus • SLC  
FEE: \$265 + \$165 special fee

### VIDEO PRODUCTION: YOUTUBE (AGE 14-17)

Have you ever thought about being a YouTube star? Do you have a video that you think could go viral? Are you interested in a career in the film industry? Then join the Youth Education production team this summer and learn to create a variety of video content for the internet. We'll cover basics in design, production and editing to get you started. Then we'll cover marketing and channel management techniques to prepare you for maintaining your YouTube personality and presence.

**YETEC 215-001**

MTWThF, Jun 18-22 • 9 AM-12 PM  
LOCATION: Campus • SLC  
FEE: \$110 + \$25 special fee

### AUDIO ENGINEERING (AGE 14-17)

Time to drop the beat! For musicians and non-musicians alike, this introductory course into music production uses the latest computer technology the industry has to offer. Learn the basics of music notation, MIDI control, digital audio editing, and software synthesis as it relates to digital

arts technology. You will also get hands on experience with microphones, sound boards and speakers. Then take a field trip to a professional recording studio and see how the experts do it. Mic drop!

**YETEC 210-001**

MTWThF, Jun 11-15 • 9 AM-12 PM  
LOCATION: Campus • SLC  
FEE: \$175 + \$15 special fee

### ESPORTS: OVERWATCH (AGE 14-17)

The U of U Esports is proud to announce a new series of training camps for high school students, in the growing competitive multiplayer video game industry. The team-based shooter, Overwatch, is quickly becoming one of the biggest games in esports and the U of U's coaching team will help you take your skill to the next level. This camp will discuss the multi-faceted esports industry (including streaming and esports competitions) as well as daily practice to help you become a better player. Co-sponsored with the U of U's EAE program.

**YETEC 401-001**

MTWThF, Aug 13-17 • 1-4 PM  
LOCATION: Campus • SLC  
FEE: \$165 + \$70 special fee

### ESPORTS GIRLS ONLY: OVERWATCH (AGE 14-17)

The U of U Esports is proud to announce a new series of training camps, in the growing competitive multiplayer video game industry, designed to provide a welcoming environment for young women who are passionate about gaming.

The team-based shooter, Overwatch, is quickly becoming one of the biggest games in esports and the U of U's coaching team will help you take your skill to the next level. LOCATION: Campus • SLC  
FEE: \$195 + \$90 special fee  
NOTE: *Special fee includes a Wacom tablet.*

### **GAME DESIGN: GRAPHIC ART AND CODE (AGE 14-17)**

Create your own character and then tell it what to do! Learn all about game design and game studio simulation in this design-focused class. Program your own game using the versatile software Game Maker. Fabricate your own characters and scenes, then integrate your graphics into the game. Learn to manipulate code to add another level of customization, then test everything you've built by simulating your game and preparing it for production. Leave with a prototype that you can continue to develop and share with family and friends. Co-sponsored with the U of U's EAE program.

#### **YETEC 523-001**

MTWThF, Aug 13-17 • 9 AM-12 PM  
LOCATION: Campus • SLC  
FEE: \$195 + \$90 special fee  
NOTE: *Special fee includes a Wacom tablet.*

## **DIGITAL ART: PHOTOSHOP TECHNIQUES (AGE 14-17)**

Get creative in this introductory digital art class! Explore the creation of artistically expressive images, while focusing on image manipulation techniques including special effects, filters, layers and masks. You will also use current computer-imaging software to create original art in a variety of formats like printing, website, or billboards. Plus, you'll leave class with your own Wacom tablet to keep practicing your skills at home!

### **YETEC 52-001**

MTWThF, Jun 18-22 • 1-4 PM  
LOCATION: Campus • SLC  
FEE: \$110 + \$90 special fee  
NOTE: *Special fee includes a Wacom tablet.*

## **CREATIVE ARTS**

### **PHOTO FRENZY! (AGE 12-17)**

Become a digital photography ninja in this five-day course. Students will uncover the hidden potential behind the lens, and gain a superior knowledge of aperture, white balance, exposure, and ISO sensitivity. They will try their hand at time lapse, learn when to use Macro, and explore photography from many technical and conceptual angles. All those extra buttons will soon be an arsenal of picture taking prowess! Co-sponsored with Higher Ground Learning.

NOTE: *Each student must provide his/her own digital camera. Point and shoot cameras are welcome, but a DSLR can provide many more creative and learning opportunities.*

### **YETEC 64-001**

MTWThF, Jun 18-22 • 9 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$135 + \$80 special fee

### **FASHION DESIGN SCHOOL (AGE 12-17)**

Are you a creative detail-oriented person who is passionate about innovation and in search of a place to self-express? This five-day workshop will provide you with a chance to explore this multifarious field and will culminate in a huge Fashion Show event where you will market your new fashion line. Students will develop their sense of color, texture and detail; they will sketch, sew, render and pattern while embellishing their creative ideas visually and verbally with studs, patches, stencils, textures, dye, and other accents. No prerequisite required, although some sewing experience is an asset.

### **YEART 114-001**

MTWThF, Jun 11-15 • 1-4 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$135 + \$80 special fee

### **BUILD YOUR OWN LONGBOARD: CUSTOM BOARDS (AGE 14-17)**

This week long design-build course gives students a chance to custom design and build their own longboard. From Pintails to DropThroughs to Penny Cruisers, we'll use modern wood

pressing techniques and old-fashioned hand tools to cut and shape a longboard to your specific design. Co-sponsored with Higher Ground Learning.

NOTE: *Students must have a helmet to test their boards the last day of class.*

### **YESPR 52-001**

MTWThF, Jul 16-20 • 1-4 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$125 + \$150 special fee

### **URBAN ART - SPRAY PAINT MANIFESTO: AEROSOLS, MURALS + MASTERPIECES (AGE 14-17)**

Students will work alongside local artist Matt Monsoon and spend five days digging in deep with aerosol arts, exploring the ins-and-outs of spray paint techniques, murals, and street art. We will draw inspiration from the 'greats' of graffiti and guerilla art - from the early days of 'rogue' artists like Basquiat to today's highly-collected urban art legends like Shepard Fairey and Banksy. Extra lab time will be provided for students to go hands-on with large spray paint mural projects and artworks of their own, as well as to hone in skills in stenciling, wheat paste, lettering, and other street art essentials. Co-sponsored with Higher Ground Learning.

### **YEART 307-001**

MTWThF, Jul 9-13 • 1-5 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$145 + \$100 special fee

## **STORYBOARD ART FOR FILM (AGE 12-17)**

Embrace your inner storyteller in this introductory class. Storyboarding is the skill of visually outlining a story for films, comics, illustrations or YouTube videos. You'll produce a blueprint of your story in its simplest form then draft your storyboard in a way that communicates to your target demographic. Spend the week studying and implementing techniques of Disney, Pixar, Marvel, DC and many others.

### **YEART 330-001**

MTWThF, Jul 16-20 • 1-4 PM  
LOCATION: Campus • SLC  
FEE: \$110 + \$25 special fee

### **IMPROV: LIVE AND UNREHEARSED (14-17)**

Think fast and act on your feet! Using classical acting techniques to better your public speaking, listening, and critical thinking skills, improv teaches the importance of trust and confidence in any situation, given a moment's notice. Within seconds, improv can create entire scenes and stories where each team member supports each other and the results are always unexpected.

### **YEART 361-001**

MTWThF, Jun 25-29 • 1-4 PM  
LOCATION: Campus • SLC  
FEE: \$110 + \$10 special fee

## ENGINEERING AND MATH

### **STOCK SLEUTHS: FROM INDEX FUNDS TO BITCOIN (AGE 14-17)**

Explore the world of investing and learn how the markets work in this week-long introduction to trading. Attention will be given to traditional modes of investment (and why starting early is so important!), but class will also focus on active trading, cryptocurrencies, penny stocks, and other risky avenues that some investors pursue. Simulated trading competitions will refine fundamental concepts as students learn how to manage a portfolio and learn why value is important even in the world of analytic trading. Come ready to crunch the numbers and place your bets! Co-sponsored with Higher Ground Learning.  
*NOTE: Students should have an extremely high level of interest in math.*

#### **YESCI 218-001**

MTWThF, Aug 6-10 • 10 AM-12 PM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$110 + \$70 special fee

### **FREAKONOMICS (AGE 12-17)**

In one of our most popular workshops students will study the modern market system with a hands-on approach and engage in a mini-market game of risk, chance, and profit as they captain businesses of their own in the battle for market supremacy! They will learn the basic mechanics of the stock market and develop an understanding of market forces, trading techniques, and the fundamentals of analysis. Finally, students will learn how they fit into the economic world and the power of their own decisions in the interconnected world of commerce. Co-sponsored with Higher Ground Learning.  
*NOTE: Students should have a high level of interest in math.*

#### **YESCI 212-001**

MTWThF, Jun 25-29 • 9:00-11:30 AM  
LOCATION: Higher Ground Learning,  
380 W Pierpont Ave • SLC  
FEE: \$110 + \$80 special fee

### **RECYCLED CITY (AGE 14-17)**

Never refuse to reuse. Work together to design, draw, and construct an ideal city out of so-called garbage, while learning what happens to your trash and other ways to turn it into something new.

#### **YESCI 261-001**

MTWThF, Jul 30-Aug 3 • 1-4 PM  
LOCATION: Campus • SLC  
FEE: \$120 + \$30 special fee

## SPORTS, RECREATION, AND LEISURE

### **OUTDOOR DISCOVERY: BACKCOUNTRY EXPERIENCE (AGE 14-17)**

Experience the wonderful Wasatch in this backcountry experience that will teach you how to have a safe adventure in the wild wilderness. Embark on a lasting adventure while learning how to prepare for the unexpected. Learn the basics of handling an emergency situation and gain useful skills to help out in remote environments. End the week with an overnight backpacking trip in the Wasatch backcountry to put your skills to the test. Take the smart approach and join the ultimate backcountry experience! Co-sponsored with Mountain Education Development.  
*NOTE: Participants will first meet on the U of U campus and will then meet at a different trailhead along the Wasatch each day. Parents are responsible for dropping off and picking up students at the trailhead on the following days: Tuesday, Thursday, and Friday. Directions for drop off/pick up and packing list will be emailed out a week prior to the start of class. Food is provided for the overnight camping trip. Tents, sleeping bags, pads, and backpacks are also provided. Lunch is not provided.*

#### **YESPR 303-001**

MTWThF, Aug 6-10 • 9 AM-3 PM  
LOCATION: Campus • SLC  
FEE: \$360 + \$90 special fee

### **OUTDOOR DISCOVERY: ALL-INCLUSIVE ADVENTURE (AGE 14-17)**

Join the ultimate adventure! Experience a new outdoor pursuit like hiking, canoeing, and rock climbing each day of the week during this experience. Gain valuable outdoor skills including outdoor cooking, camping, and Leave No Trace principles. Discover your favorite way to recreate in this sampler-style class. Co-sponsored with Mountain Education Development.  
*NOTE: Participants will first meet on the U of U campus and will then meet at a different trailhead along the Wasatch each day. Parents are responsible for dropping off and picking up students at the trailhead on the following days: Tuesday, Wednesday, Thursday, and Friday. Directions for drop off/pick up and packing list will be emailed out a week prior to the start of class. Lunch is not provided.*

#### **YESPR 306-001**

MTWThF, Jul 30-Aug 3 • 9 AM-3 PM  
LOCATION: Campus • SLC  
FEE: \$360 + \$90 special fee

### **U GOLF ACADEMY INTERMEDIATE CAMPS: ROSE PARK (AGE 8-17)**

Join experienced PGA professionals during this all-day, week-long junior golf program designed for aspiring young golfers. Learn the core fundamentals of the game and its inherent values. Putting, chipping, pitching and full swing will be taught in small groups organized by age and ability. Enjoy individual instruction at each skill station. Learn about equipment, rules/etiquette and history of the game then participate in a friendly and exciting skills contest. After lunch, hit the links and practice your skill on the challenging Salt Lake City courses. Our goal is good golfers - better people. Co-sponsored with Salt Lake City Golf. NOTE: *Lunch is included with registration. Golfers must be able to shoot at least 60 on a 9-hole course to register. Students will have a 4:1 ratio.*

#### **YESPR 112-001**
